Pacific Business News says:

The Coconut Waikiki Hotel, under new management Filament Hospitality, will complete a design makeover by August, the company said Tuesday.

The Shoreline Hotel Waikiki and Coconut Waikiki Hotel on Oahu were added to Filament's 16-hotel project portfolio in February.

San Francisco-based designer Anthony Laurino, who spearheaded the interior design of the 135-room Shoreline Hotel Waikiki (formerly Seaside Hotel), is leading the Coconut Waikiki redesign.

The hotel lobby, lounge/playroom, and pool area will also be part of the design renovation. The design concept for the 81-room hotel is inspired by natural elements.

Filament also manages Lumeria, a wellness retreat located on the island of Maui.
